

Productivity Tools cloud for Sage 300

Productivity Tools cloud for Sage 300 is available free of cost for any licensee of the Windows version of TaiRox Productivity Tools. Productivity Tools cloud is written as a web application using the Sage 300 web SDK, integrating seamlessly within the Sage 300cloud framework.

Important Information Regarding 300cloud SDK Applications:

- Productivity Tools cloud requires that the Windows version of Productivity Tools also be installed.
- The cloud and Windows versions of Productivity Tools programs can be run at the same time.
- Cloud SDK applications are Sage 300 version-specific. This means, for example, that 2019.1 and 2019.2 require different downloads. Currently, only 2019.2 versions of Productivity Tools are available.
