

# TaiRox™ Productivity Tools

## Add Hundreds of Features to Sage 300

Update, Complete or Delete hundreds of orders, quotes or purchase orders in one operation. Ship hundreds of orders or invoice hundreds of shipments in one operation:

Copy accounts, account groups & segments, fiscal calendars, customers, vendors, items and more to multiple companies:

SmartFinders search for customers, vendors, items, orders and shipments like an internet search engine:

### Hundreds More Features Include:

- Edit Kits in Orders without changing Kit Definitions
- Vendor Inquiry manages purchases in 27 different ways
- Sales History Inquiry shows all the sales data in one grid
- Easily Match & Apply Payment Documents to Invoices
