

## TPAC 2019 TaiRox Preconference Agenda

**50 min Don - TaiRox CRM:** The ability to bulk-send invoices and statements to multiple email recipients is a recently added feature. A Demonstration Guide sets out a step-by-step process so you can demonstrate this new feature without getting entangled with email problems. This process will be shown. A brief overview of TaiRox CRM will also be shown.

**30 min Nancy - SOX Check Approval:** This product will be demonstrated in detail.

**15 min break**

**15 min Don - Customization:** Customization is one way to attract or retain large customers. Productivity Tools and Orchid Extender now will work together. What this can do is discussed in the context of all customization options.

**40 min Don - Productivity Tools Drill Down:** A brief overview of Productivity Tools will be shown. There are 50 programs that comprise Productivity Tools, of which perhaps 10 provide key benefits - the reasons people buy Productivity Tools. Several of these key programs will be shown, illustrating the reasons why specific features are present.

**30 min Don - Fast TaiRox Products:** The products Fast Copy Company, Fast DBTools, Fast Data Integrity and Fast Clear History will be reviewed, including the latest changes. Fast Install Check is a free, general purpose tool for diagnosing Sage 300 installation problems.

**15 min Don & Nancy - Q & A**
