The screenshot shows the 'TaiRox Download Rates' application window. It features a menu bar with 'File' and 'Help', and a tabbed interface with 'Settings', 'Rates', 'Currency Code Mapping', 'Email Notification', and 'Log'. The 'Rates' tab is active, displaying a table with the following data:

	Functional Currency	Source Currency	Rate Type	Average Rate Type	Rate Adjustment %	Spread	Enabled
	CAD	USD	SP	AV	0	0.0000000	<input checked="" type="checkbox"/>
	USD	CAD	SP	AV	0	0.0000000	<input checked="" type="checkbox"/>
	CAD	USD	WS		-1.5	0.0000000	<input checked="" type="checkbox"/>
	EUR	GBP	SP		0	0.0000000	<input checked="" type="checkbox"/>
▶*			SP		0	0.0000000	<input checked="" type="checkbox"/>

Below the table are buttons for 'Select All' and 'Select None'. Configuration options include:

- Date Matching for New Currency Tables: (dropdown)
- Rate Operation for New Currency Tables: (dropdown)
- Propagate Rates to all Companies
- Maximum Delay Time: (0 - 999 Minutes)
- Delay Between Retry Attempts: (0 - 99 Minutes)

At the bottom, there are buttons for 'Download', 'Log Files', 'Create Scheduled Task', 'Start Task Scheduler', and 'Close'.
