## Sales History Inquiry

Some businesses do not have fixed price lists. Rather, the price they charge a customer for an item is related to their most recent cost of the item or the most recent price they have charged this customer or have charged other customers. Sales History Inquiry provides a time-saving way to establish a price by assembling information into a single window.

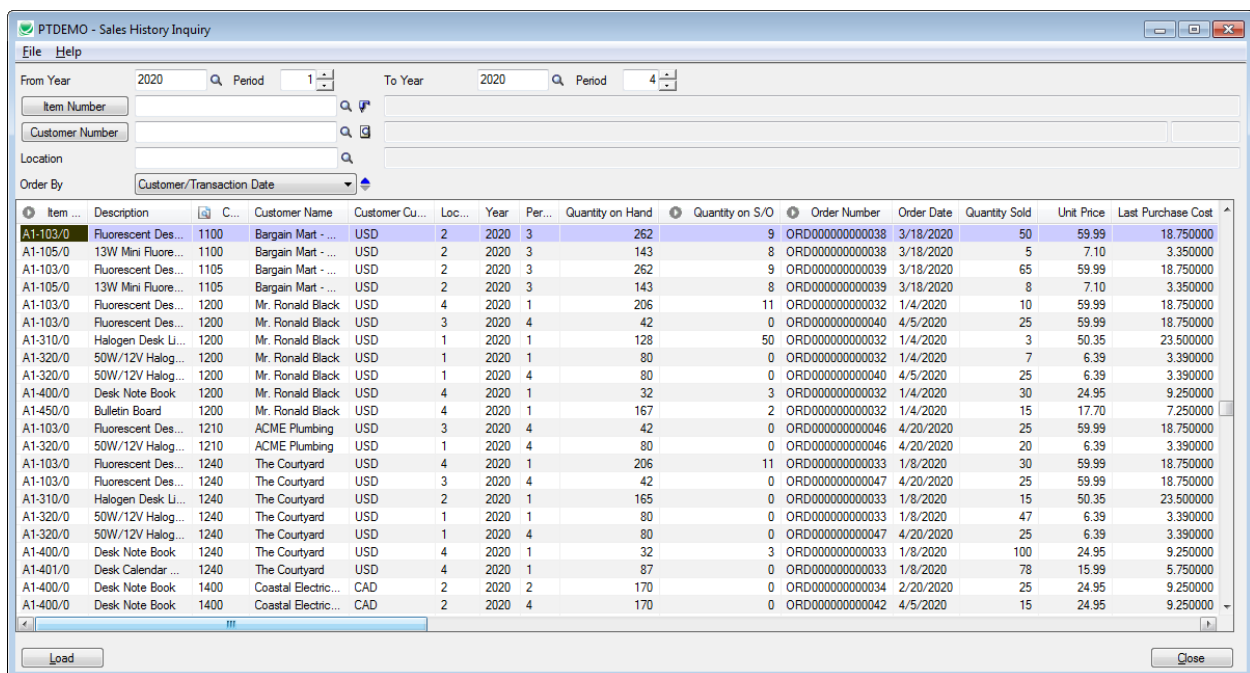

The sales history lines can be filtered by Item Number, by Customer Number or by Location, separately or in combination. If a field is blank, no filtering will be done by that field. Any of the 6 sort orders supported by the Sales History objects can be selected.

The pictures in this user guide show all columns that will be displayed for users with full rights. Columns will be hidden from users based on their permissions. Users must be able to use the Sales History program in Order Entry to use Sales History Inquiry. Users must be able to use the Purchase History program in Purchase Orders in order to see the purchase order related columns. In addition, users must have the Item Cost Inquiry right in order to see the columns showing costs.

A large number of drill-down operations are available from Sales History Inquiry, including the ability to drill to TaiRox's Vendor Inquiry program. Drill-down operations will be limited by users' rights. There are a large number of columns in Sales History Inquiry.

The 3 pictures following document all columns available. Columns can be dragged to different locations.

Leftmost columns:

The screenshot shows the PTDEMO - Sales History Inquiry window. The interface includes search filters for From Year (2020), To Year (2020), Item Number, Customer Number, and Location. The Order By dropdown is set to Customer/Transaction Date. The main table displays the following columns: Item, Description, C..., Customer Name, Customer Cu..., Loc..., Year, Per..., Quantity on Hand, Quantity on S/O, Order Number, Order Date, Quantity Sold, Unit Price, and Last Purchase Cost. The table contains multiple rows of data for various items like Fluorescent Des., 13W Mini Fluore..., 50W/12V Halog..., and Desk Note Book, with details for different customers and locations.
