

Effortless Tools for Sage 300

A Smart Finder for Sage 300

Add Search Engine Capability to Sage 300 Forms

Want to find a customer, vendor or inventory item? TaiRox Productivity Tools replace a label with a button on several Sage 300 forms:

Click on the button and up pops a finder with a single entry field. Type in a word or two - just like you would in your browser. Our finder does smart matches against many fields to find what you're looking for.

TaiRox Productivity Tools add functionality, including smart finders to Sage 300. Contact us or visit our web site to see the latest and largest additions to our tools: Vendor Inquiry & Apply Documents.
